

## RING SIZE GUIDE

Choose from our two measuring techniques to help you pick the right ring size for your Sacred Geometry Ring.

**For accuracy, please ensure that this is printed at 100%.**

Measure the lines below to ensure it's printed on scale.

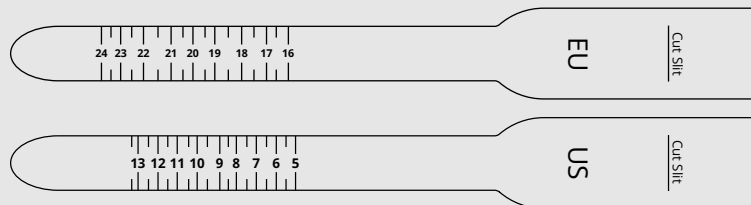

### Tips for accurate measurement

- Measure your finger later in the day when it is at its largest.
- Avoid measuring your finger when its cold, which are at their smallest.

### METHOD 1:

## PAPER SIZER

1. Print and carefully cut out the sizer below. Make a small slit in the end for the sizer to slide through.
2. Slip the rounded end through the slit, creating a circle and wrap it around your finger.
3. Pull the sizer tight over the widest part of your finger, for example a knuckle.
4. Read the number that lines up next to the slit. This is your ring size.
5. For the most accuracy, have someone help you measure and do a double check.

### METHOD 2:

## SECRET TEST

1. Pick an old ring, but good fitting ring of your loved one.
2. Place the ring over the circles below.
3. Match the **inside** edge of the ring with the closest circle. This is the inside diameter of the ring.
4. If the ring falls between two sizes, select the larger of the two.
